# CAB International Compendia

Available FREE to Land Grant University Employees

Regional IPM Centers, National Plant Diagnostic Network, & CSREES Make Resource Available

The CAB International's Crop Protection, Animal Health, and Forestry Compendia are now available FREE online to land grant university employees at [www.ipmcenters.org/cabi](http://www.ipmcenters.org/cabi). The compendia are similar to encyclopedias and synthesize a wide range of scientific information that is useful for scientists and extension educators, particularly when called upon to provide fast and accurate information regarding newly emerging animal diseases and plant pests. The regularly updated Compendia are comprised of peer reviewed and edited information from thousands of specialists throughout the world.

The Regional Integrated Pest Management Centers and the National Plant Diagnostic Centers are making the three compendia available to land grant university faculty and staff members, free of charge, with funding provided by CSREES. All others may subscribe to the publication for a fee after logging on to [www.cabi.org](http://www.cabi.org).
